Dear Frederick,

I am a co-chair of the [Genetics Society of America ECS Steering Committee](#). We are reaching out to you to see if you would be interested in presenting for our monthly web seminar series during the October session (likely on October 17th). Please let us know if you will be interested in presenting by this Wednesday September 25th, 5:00PM EST.

If you have any questions about the seminar or its format please feel free to contact us.

Thank you for your time,  
Gavin

Greetings, Gavin,

Yes, I'd be delighted to present. Can you remind me of how much time I would have for the presentation?

Thanks again!

fred

Hi Fred

The format will be 8-10 mins for the presentation with 10-12 min Q&A session after. The seminar will be 2 back to back talks with one of the ECS committee members proctoring the event. We use GoToMeeting, like Skype, to host the seminar and will advertise for your talk on social media, mostly twitter, and well as invite Genetics and G3 editors with overlapping interests. Please let me know if you have any questions, we have really enjoyed running this program and want to make sure you get the most out of it.

Also can you confirm if October 17th would work for you?

Best,  
Gavin

Thanks for the additional information, Gavin. What time on the 17th are you thinking of? I currently have something scheduled for 3 - 4:30pm Eastern time that day, but I might be able to reschedule it if needed.

Thanks again,

We are not sure which time yet and will adjust it based the preferences of you and the other speaker. We will do our best to avoid the 3-4:30pm time slot and let you know the final time as soon as possible. Thank you for your quick responses!

Best,  
Gavin

Dear Fred,

We are very excited for your presentation. We wanted to schedule the time of the seminar. Would 10:00AM EST, October 17th work for you?

In order to make sure we stay on schedule setting the seminar up and advertising it, please let us know by Monday, September 30th.

Best,  
Gavin

Dear Fred,  
The other speaker had a time conflict at 10:00AM, would 1:00 EST work for you?

Best,  
Gavin
